SAFETY DATA SHEET
Agilent Oligo aCGH Hybridization Kit (100), Part Number 5188-5380

Section 1. Identification

Product identifier : Agilent Oligo aCGH Hybridization Kit (100), Part Number 5188-5380
Part No. (Chemical Kit) : 5188-5380
Part No. : 2X Hi-RPM Hybridization Buffer 5188-6420
10X aCGH Blocking Agent 5190-0405

Relevant identified uses of the substance or mixture and uses advised against

Analytical reagent.
2X Hi-RPM Hybridization Buffer 25 ml
10X aCGH Blocking Agent 5 x 1.4 ml

Supplier/Manufacturer : Agilent Technologies Australia Pty Ltd
679 Springvale Road
Mulgrave
Victoria 3170, Australia
1800 802 402

Emergency telephone number (with hours of operation) : CHEMTREC®: +(61)-290372994

Section 2. Hazard(s) identification

Classification of the substance or mixture

2X Hi-RPM Hybridization Buffer
H302 ACUTE TOXICITY (oral) - Category 4
H314 SKIN CORROSION/IRRITATION - Category 1A
H318 SERIOUS EYE DAMAGE/EYE IRRITATION - Category 1
H373 SPECIFIC TARGET ORGAN TOXICITY - REPEATED EXPOSURE (central nervous system (CNS)) - Category 2
H402 SHORT-TERM (ACUTE) AQUATIC HAZARD - Category 3
H412 LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 3

10X aCGH Blocking Agent
H315 SKIN CORROSION/IRRITATION - Category 2
H319 SERIOUS EYE DAMAGE/EYE IRRITATION - Category 2A
H335 SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE (Respiratory tract irritation) - Category 3

Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: 10 - 30%
Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 30 - 60%
Percentage of the mixture consisting of ingredient(s) of unknown oral toxicity: 10 - 30%

Date of issue/Date of revision : 22/05/2017
Date of previous issue : 24/12/2015
Version : 4

**Hazard statements**

- **2X Hi-RPM Hybridization Buffer**
  - H302 - Harmful if swallowed.
  - H314 - Causes severe skin burns and eye damage.
  - H373 - May cause damage to organs through prolonged or repeated exposure. (central nervous system (CNS))
  - H412 - Harmful to aquatic life with long lasting effects.

- **10X aCGH Blocking Agent**
  - H319 - Causes serious eye irritation.
  - H315 - Causes skin irritation.
  - H335 - May cause respiratory irritation.

**Precautionary statements**

**Prevention**

- **2X Hi-RPM Hybridization Buffer**
  - P280 - Wear protective gloves. Wear eye or face protection. Wear protective clothing.
  - P273 - Avoid release to the environment.
  - P260 - Do not breathe vapour.
  - P270 - Do not eat, drink or smoke when using this product.
  - P264 - Wash hands thoroughly after handling.

- **10X aCGH Blocking Agent**
  - P280 - Wear protective gloves. Wear eye or face protection.
  - P271 - Use only outdoors or in a well-ventilated area.
  - P261 - Avoid breathing dust.
  - P264 - Wash hands thoroughly after handling.

**Response**

- **2X Hi-RPM Hybridization Buffer**
  - P314 - Get medical attention if you feel unwell.
  - P304 + P340 + P310 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or physician.
  - P301 + P310 + P330 + P331 - IF SWALLOWED: Immediately call a POISON CENTER or physician. Rinse mouth. Do NOT induce vomiting.
  - P303 + P361 + P353 + P363 + P310 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse. Immediately call a POISON CENTER or physician.
  - P305 + P351 + P338 + P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue
Section 2. Hazard(s) identification

10X aCGH Blocking Agent
P304 + P340 + P312 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician.
P302 + P352 + P362 + P363 - IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. Wash contaminated clothing before reuse.
P332 + P313 - If skin irritation occurs: Get medical attention.
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 - If eye irritation persists: Get medical attention.

Section 4. First aid measures

**Ingestion**

- **2X Hi-RPM Hybridization Buffer**
  - Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Chemical burns must be treated promptly by a physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

- **10X aCGH Blocking Agent**
  - Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

**Most important symptoms/effects, acute and delayed**

**Potential acute health effects**

**Eye contact**

- **2X Hi-RPM Hybridization Buffer**
  - Causes serious eye damage.

- **10X aCGH Blocking Agent**
  - Causes serious eye irritation.

**Inhalation**

- **2X Hi-RPM Hybridization Buffer**
  - Causes respiratory irritation.

**Skin contact**

- **2X Hi-RPM Hybridization Buffer**
  - Causes severe burns.

- **10X aCGH Blocking Agent**
  - Causes skin irritation.

**Ingestion**

- **2X Hi-RPM Hybridization Buffer**
  - Harmful if swallowed.

- **10X aCGH Blocking Agent**
  - No known significant effects or critical hazards.

**Over-exposure signs/symptoms**

**Eye contact**

- **2X Hi-RPM Hybridization Buffer**
  - Adverse symptoms may include the following:
    - pain
    - watering
    - redness

- **10X aCGH Blocking Agent**
  - Adverse symptoms may include the following:
    - pain or irritation
    - watering
    - redness
### Section 4. First aid measures

#### Inhalation
- **2X Hi-RPM Hybridization Buffer**
- **10X aCGH Blocking Agent**

No specific data.

Adverse symptoms may include the following:
- respiratory tract irritation
- coughing

#### Skin contact
- **2X Hi-RPM Hybridization Buffer**
- **10X aCGH Blocking Agent**

No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are present, it may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

Adverse symptoms may include the following:
- pain or irritation
- redness
- blistering may occur

#### Ingestion
- **2X Hi-RPM Hybridization Buffer**
- **10X aCGH Blocking Agent**

Adverse symptoms may include the following:
- stomach pains

No specific data.

#### Protection of first-aiders
- **2X Hi-RPM Hybridization Buffer**
- **10X aCGH Blocking Agent**

No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

Adverse symptoms may include the following:
- pain or irritation
- redness
- blistering may occur

#### Notes to physician
- **2X Hi-RPM Hybridization Buffer**
- **10X aCGH Blocking Agent**

In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

#### Specific treatments
- **2X Hi-RPM Hybridization Buffer**
- **10X aCGH Blocking Agent**

No specific treatment.

#### Indication of immediate medical attention and special treatment needed, if necessary

### Section 5. Firefighting measures

#### Extinguishing media
- **Suitable extinguishing media**
  - **2X Hi-RPM Hybridization Buffer**
  - **10X aCGH Blocking Agent**

Use an extinguishing agent suitable for the surrounding fire.

#### Unsuitable extinguishing media
- **2X Hi-RPM Hybridization Buffer**
- **10X aCGH Blocking Agent**

None known.
Section 5. Firefighting measures

### Specific hazards arising from the chemical

**2X Hi-RPM Hybridization Buffer**

In a fire or if heated, a pressure increase will occur and the container may burst. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

**10X aCGH Blocking Agent**

No specific fire or explosion hazard.

### Hazardous thermal decomposition products

**2X Hi-RPM Hybridization Buffer**

Decomposition products may include the following materials:
- carbon dioxide
- carbon monoxide
- nitrogen oxides
- sulfur oxides
- halogenated compounds
- metal oxide/oxides

**10X aCGH Blocking Agent**

Decomposition products may include the following materials:
- carbon dioxide
- carbon monoxide
- nitrogen oxides
- halogenated compounds

### Special protective actions for fire-fighters

**2X Hi-RPM Hybridization Buffer**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**10X aCGH Blocking Agent**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

### Special protective equipment for fire-fighters

**2X Hi-RPM Hybridization Buffer**

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

**10X aCGH Blocking Agent**

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

### For non-emergency personnel

**2X Hi-RPM Hybridization Buffer**

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Do not breathe vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

**10X aCGH Blocking Agent**

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
Section 6. Accidental release measures

For emergency responders:

**2X Hi-RPM Hybridization Buffer**
If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**10X aCGH Blocking Agent**
If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions:

**2X Hi-RPM Hybridization Buffer**
Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.

**10X aCGH Blocking Agent**
Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and material for containment and cleaning up

**Methods for cleaning up**

**2X Hi-RPM Hybridization Buffer**
Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

**10X aCGH Blocking Agent**
Move containers from spill area. Avoid dust generation. Using a vacuum with HEPA filter will reduce dust dispersal. Place spilled material in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

Precautions for safe handling

**Protective measures**

**2X Hi-RPM Hybridization Buffer**
Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. Avoid release to the environment. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

**10X aCGH Blocking Agent**
Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Section 7. Handling and storage

Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Appropriate engineering controls

Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapour or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Date of issue/Date of revision : 22/05/2017
Date of previous issue : 24/12/2015.
Version : 4
9/17
Section 8. Exposure controls and personal protection

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles and/or face shield. If inhalation hazards exist, a full-face respirator may be required instead.

Skin protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Aspiration hazard
Not available.

Information on likely routes of exposure
- 2X Hi-RPM Hybridization Buffer
- 10X aCGH Blocking Agent

Potential acute health effects

Eye contact:

- Causes serious eye damage.

Inhalation:

- Causes serious eye irritation.
- May cause respiratory irritation.

Skin contact:

- Causes severe burns.
- Causes skin irritation.

Ingestion:

- Harmful if swallowed.
- No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact:

- Adverse symptoms may include the following:
  - pain
  - watering
  - redness
  - 10X aCGH Blocking Agent
  - Adverse symptoms may include the following:
    - pain or irritation
    - watering
    - redness
Section 11. Toxicological information

Inhalation: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
Adverse symptoms may include the following: respiratory tract irritation coughing

Skin contact: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
Adverse symptoms may include the following:
- pain or irritation
- redness
- blistering may occur

Ingestion: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
Adverse symptoms may include the following:
- stomach pains

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Short term exposure
Potential immediate effects: Not available.
Potential delayed effects: Not available.

Long term exposure
Potential immediate effects: Not available.
Potential delayed effects: Not available.

Potential chronic health effects: Not available.

General: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
May cause damage to organs through prolonged or repeated exposure.
No known significant effects or critical hazards.

Carcinogenicity: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
No known significant effects or critical hazards.

Mutagenicity: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
No known significant effects or critical hazards.

Teratogenicity: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
No known significant effects or critical hazards.

Developmental effects: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
No known significant effects or critical hazards.

Fertility effects: 2X Hi-RPM Hybridization Buffer 10X aCGH Blocking Agent
No known significant effects or critical hazards.

### Mobility in soil

- **Soil/water partition coefficient (K<sub>oc</sub>):** Not available.

### Other adverse effects

- No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods:
The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and
Section 13. Disposal considerations

its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

**ADG / IMDG / IATA** : Not regulated as Dangerous Goods according to the ADG Code.

**Special precautions for user** : Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to Annex II of Marpol and the IBC Code** : Not available.

Section 15. Regulatory information

**Standard Uniform Schedule of Medicine and Poisons**

Not regulated.

**Model Work Health and Safety Regulations - Scheduled Substances**

No listed substance

**International regulations**

Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

Montreal Protocol (Annexes A, B, C, E)

Not listed.

Stockholm Convention on Persistent Organic Pollutants

Not listed.

Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

**Inventory list**

Key to abbreviations

- ADG = Australian Dangerous Goods
- ATE = Acute Toxicity Estimate
- BCF = Bioconcentration Factor
- GHS = Globally Harmonized System of Classification and Labelling of Chemicals
- IATA = International Air Transport Association
- IBC = Intermediate Bulk Container
- IMDG = International Maritime Dangerous Goods
- LogPow = logarithm of the octanol/water partition coefficient
- NOHSC = National Occupational Health and Safety Commission
- SUSMP = Standard Uniform Schedule of Medicine and Poisons
- UN = United Nations
