Conforms to Code of Practice for the Preparation of Safety Data Sheets for Hazardous Chemicals

SAFETY DATA SHEET

SureGuide gRNA Control Kit - 20 Reactions, Part Number 5190-7718

Section 1. Identification

Product identifier: SureGuide gRNA Control Kit - 20 Reactions, Part Number 5190-7718
Part No. (Chemical Kit): 5190-7718
Part No.: Control DNA Target 50 ng/ul 5190-7536
Control gRNA 1uM 5190-7539

Relevant identified uses of the substance or mixture and uses advised against

Analytical reagent.

Control DNA Target 50 ng/ul 0.02 ml (x2)
Control gRNA 1uM 0.01 ml

Supplier/Manufacturer: Agilent Technologies Australia Pty Ltd
679 Springvale Road
Mulgrave
Victoria 3170, Australia
1800 802 402

Emergency telephone number (with hours of operation): CHEMTREC®: (61)-290372994

Section 2. Hazard(s) identification

Classification of the substance or mixture
Not classified.

Control DNA Target 50 ng/ul Not applicable.
Control gRNA 1uM Not applicable.
Control DNA Target 50 ng/ul Not applicable.
Control gRNA 1uM Not applicable.

GHS label elements

Signal word: Control DNA Target 50 ng/ul No signal word.
Control gRNA 1uM No signal word.

Hazard statements: Control DNA Target 50 ng/ul No known significant effects or critical hazards.
Control gRNA 1uM No known significant effects or critical hazards.

Precautionary statements

Prevention: Control DNA Target 50 ng/ul Not applicable.
Control gRNA 1uM Not applicable.

Response: Control DNA Target 50 ng/ul Not applicable.
Control gRNA 1uM Not applicable.

Storage: Control DNA Target 50 ng/ul Not applicable.
Control gRNA 1uM Not applicable.

Disposal: Control DNA Target 50 ng/ul Not applicable.
Control gRNA 1uM Not applicable.

Supplemental label elements

Other hazards which do not result in classification: Control DNA Target 50 ng/ul None known.
Control gRNA 1uM None known.
Section 3. Composition and ingredient information

<table>
<thead>
<tr>

<th>CAS number/other identifiers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Control DNA Target 50 ng/ul</td>
<td>Mixture</td>
</tr>
<tr>
<td>Control gRNA 1uM</td>
<td>Mixture</td>
</tr>
</tbody>
</table>

**CAS number/other identifiers**

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First-aid measures

**Description of necessary first aid measures**

<table>
<thead>
<tr>
<th>Eye contact</th>
<th>Control DNA Target 50 ng/ul</th>
<th>Mixture</th>
</tr>
</thead>
<tbody>
<tr>
<td>Control gRNA 1uM</td>
<td>Mixture</td>
<td></td>
</tr>
</tbody>
</table>

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

<table>
<thead>
<tr>
<th>Inhalation</th>
<th>Control DNA Target 50 ng/ul</th>
<th>Mixture</th>
</tr>
</thead>
<tbody>
<tr>
<td>Control gRNA 1uM</td>
<td>Mixture</td>
<td></td>
</tr>
</tbody>
</table>

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

<table>
<thead>
<tr>
<th>Skin contact</th>
<th>Control DNA Target 50 ng/ul</th>
<th>Mixture</th>
</tr>
</thead>
<tbody>
<tr>
<td>Control gRNA 1uM</td>
<td>Mixture</td>

<tr>
<th>Ingestion</th>
<th>Control DNA Target 50 ng/ul</th>
<th>Mixture</th>
</tr>
</thead>
<tbody>
<tr>
<td>Control gRNA 1uM</td>
<td>Mixture</td>
<td></td>
</tr>
</tbody>
</table>

Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

**Most important symptoms/effects, acute and delayed**

**Over-exposure signs/symptoms**

Date of issue/Date of revision: 10/1/2015
Date of previous issue: 8/27/2014
Version: 2
Section 4. First-aid measures

Eye contact: Control DNA Target 50 ng/ul No specific data. Control gRNA 1uM No specific data.

Inhalation: Control DNA Target 50 ng/ul No specific data. Control gRNA 1uM No specific data.

Skin contact: Control DNA Target 50 ng/ul No specific data. Control gRNA 1uM No specific data.

Ingestion: Control DNA Target 50 ng/ul No specific data. Control gRNA 1uM No specific data.

Notes to physician: Control DNA Target 50 ng/ul Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Control gRNA 1uM Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

Specific treatments: Control DNA Target 50 ng/ul No specific treatment. Control gRNA 1uM No specific treatment.

Protection of first-aiders: Control DNA Target 50 ng/ul No action shall be taken involving any personal risk or without suitable training. Control gRNA 1uM No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media: Control DNA Target 50 ng/ul Use an extinguishing agent suitable for the surrounding fire. Control gRNA 1uM Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media: Control DNA Target 50 ng/ul None known. Control gRNA 1uM None known.

Specific hazards arising from the chemical: Control DNA Target 50 ng/ul In a fire or if heated, a pressure increase will occur and the container may burst. Control gRNA 1uM In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products: Control DNA Target 50 ng/ul No specific data. Control gRNA 1uM No specific data.

Special protective actions for fire-fighters: Control DNA Target 50 ng/ul Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Control gRNA 1uM Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters: Control DNA Target 50 ng/ul Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Control gRNA 1uM Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Date of issue/Date of revision: 10/1/2015 Date of previous issue: 8/27/2014 Version: 2
Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:
- Control DNA Target 50 ng/ul: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
- Control gRNA 1uM: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

For emergency responders:
- Control DNA Target 50 ng/ul: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in “For non-emergency personnel”.
- Control gRNA 1uM: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in “For non-emergency personnel”.

Environmental precautions:
- Control DNA Target 50 ng/ul: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Control gRNA 1uM: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and material for containment and cleaning up

For non-emergency personnel:
- Control DNA Target 50 ng/ul: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
- Control gRNA 1uM: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 7. Handling and storage

Precautions for safe handling

For non-emergency personnel:
- Control DNA Target 50 ng/ul: Put on appropriate personal protective equipment (see Section 8).
- Control gRNA 1uM: Put on appropriate personal protective equipment (see Section 8).
Section 7. Handling and storage

Advice on general occupational hygiene
- Control DNA Target 50 ng/ul
- Control gRNA 1uM

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities
- Control DNA Target 50 ng/ul
- Control gRNA 1uM

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls and personal protection

Control parameters

Occupational exposure limits
- None.

Appropriate engineering controls
- Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls
- Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures
- Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection
- Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Section 8. Exposure controls and personal protection

Skin protection

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Section 9. Physical and chemical properties

Appearance

Physical state: Control DNA Target 50 ng/ul Liquid. Control gRNA 1uM Liquid.

Colour: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Odour: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Odour threshold: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

pH: Control DNA Target 50 ng/ul 8 Control gRNA 1uM 7

Melting point: Control DNA Target 50 ng/ul 0°C (32°F) Control gRNA 1uM 0°C (32°F)

Boiling point: Control DNA Target 50 ng/ul 100°C (212°F) Control gRNA 1uM 100°C (212°F)

Flash point: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Evaporation rate: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Flammability (solid, gas): Control DNA Target 50 ng/ul Not applicable. Control gRNA 1uM Not applicable.

Lower and upper explosive (flammable) limits: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Vapour pressure: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Vapour density: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Relative density: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Solubility: Control DNA Target 50 ng/ul Easily soluble in the following materials: cold water and hot water. Control gRNA 1uM Easily soluble in the following materials: cold water and hot water.

Partition coefficient: n-octanol/water: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Auto-ignition temperature: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.

Decomposition temperature: Control DNA Target 50 ng/ul Not available. Control gRNA 1uM Not available.
Section 9. Physical and chemical properties

Viscosity
- Control DNA Target 50 ng/ul: Not available.
- Control gRNA 1uM: Not available.

Section 10. Stability and reactivity

Reactivity
- Control DNA Target 50 ng/ul: No specific test data related to reactivity available for this product or its ingredients.
- Control gRNA 1uM: No specific test data related to reactivity available for this product or its ingredients.

Chemical stability
- Control DNA Target 50 ng/ul: The product is stable.
- Control gRNA 1uM: The product is stable.

Possibility of hazardous reactions
- Control DNA Target 50 ng/ul: Under normal conditions of storage and use, hazardous reactions will not occur.
- Control gRNA 1uM: Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid
- Control DNA Target 50 ng/ul: No specific data.
- Control gRNA 1uM: No specific data.

Incompatible materials
- Control DNA Target 50 ng/ul: May react or be incompatible with oxidising materials.
- Control gRNA 1uM: May react or be incompatible with oxidising materials.

Hazardous decomposition products
- Control DNA Target 50 ng/ul: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- Control gRNA 1uM: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity
Not available.

Irritation/Corrosion
Not available.

Sensitisation
Not available.

Mutagenicity
Not available.

Carcinogenicity
Not available.

Reproductive toxicity
Not available.

Teratogenicity
Not available.

Specific target organ toxicity (single exposure)
Not available.

Specific target organ toxicity (repeated exposure)
Not available.
Section 11. Toxicological information

Aspiration hazard
Not available.

Information on the likely routes of exposure

Numerical measures of toxicity

Acute toxicity estimates
Not available.
Section 11. Toxicological information

Section 12. Ecological information

**Toxicity**
Not available.

**Persistence and degradability**
Not available.

**Bioaccumulative potential**
Not available.

**Mobility in soil**

**Soil/water partition coefficient (K<sub>OC</sub>)**
Not available.

**Other adverse effects**
No known significant effects or critical hazards.

Section 13. Disposal considerations

**Disposal methods**
The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

**Regulatory information**

**ADG / IMDG / IATA**
Not regulated as Dangerous Goods according to the ADG Code.

**Special precautions for user**
**Transport within user’s premises**: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**
Not available.

Section 15. Regulatory information

**Standard Uniform Schedule of Medicine and Poisons**
Not regulated.

**Model Work Health and Safety Regulations - Scheduled Substances**
No listed substance

**Australia inventory (AICS)**
Not determined.

**International regulations**

**Chemical Weapon Convention List Schedules I, II & III Chemicals**

Date of issue/Date of revision: 10/1/2015
Date of previous issue: 8/27/2014
Version: 2
Section 15. Regulatory information

Not listed.

**Montreal Protocol (Annexes A, B, C, E)**
Not listed.

**Stockholm Convention on Persistent Organic Pollutants**
Not listed.

**Rotterdam Convention on Prior Inform Consent (PIC)**
Not listed.

**UNECE Aarhus Protocol on POPs and Heavy Metals**
Not listed.

**International lists**

**National inventory**

- **Canada**: All components are listed or exempted.
- **China**: All components are listed or exempted.
- **Europe**: All components are listed or exempted.
- **Japan**: All components are listed or exempted.
- **Malaysia**: Not determined.
- **New Zealand**: Not determined.
- **Philippines**: Not determined.
- **Republic of Korea**: Not determined.
- **Taiwan**: All components are listed or exempted.
- **United States**: All components are listed or exempted.

Section 16. Any other relevant information

**History**

- **Date of issue/Date of revision**: 01/10/2015
- **Date of previous issue**: 27/08/2014
- **Version**: 2

**Key to abbreviations**

- **ADG** = Australian Dangerous Goods
- **ATE** = Acute Toxicity Estimate
- **BCF** = Bioconcentration Factor
- **GHS** = Globally Harmonized System of Classification and Labelling of Chemicals
- **IATA** = International Air Transport Association
- **IBC** = Intermediate Bulk Container
- **IMDG** = International Maritime Dangerous Goods
- **LogPow** = logarithm of the octanol/water partition coefficient
- **MARPOL 73/78** = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)
- **NOHSC** = National Occupational Health and Safety Commission
- **SUSMP** = Standard Uniform Schedule of Medicine and Poisons
- **UN** = United Nations
