**Section 1 - Product and Company Identification**

Product Name: Multiple Affinity Removal Column 4.6x100mm Hu-PL7  
Agilent Part Numbers: 5188-6410  
Date Prepared: 12/12/2005  
Distributed by: Agilent Technologies, Inc.  
Logistics Center - Americas  
500 Ships Landing Way  
New Castle, Delaware 19720  
USA Emergency Telephone Number: 1-302-633-8777  
USA Information Telephone Number: 1-877-4Agilent  
European Information Telephone Number: +49 (7243) 602 200  
When Calling from Outside the USA Dial +11, then 1, then 302 633 8899

**Section 2 - Composition/Information on Ingredients**

The Multiple Affinity Removal column body is made of polyetheretherketone (PEEK) [31694-16-3], the Spin Cartridge body is made of polypropylene [9003-07-0] and they are packed with antibody modified polymeric media wetted by a buffered neutral salt solution containing phosphates; 0.02% sodium azide [26628-22-8] and Hu-PL7 resin, pH 7.4, in water. These antibody-modified media components have no CAS numbers assigned.

Chemical Families: Antibody-modified polymer in aqueous buffered salt solution with phosphates  
Chemical Synonyms: None

**Section 3 - Hazards Identification**

No adverse human health effects have been observed upon exposure to the substances in this column.

**Section 4 - First-Aid Measures**

**Inhalation:** If breathing is difficult, move affected person to fresh air.  
**Skin Contact:** If irritation occurs, wash with soap and water.  
**Eye Contact:** If irritation occurs, irrigate the eyes with copious amounts of water by separating the eyelids with fingers.  
**Ingestion:** If swallowed, get medical attention immediately.

**Section 5 - Fire-Fighting Measures**

**Extinguishing Media:** Appropriate to surroundings.  
**Special Fire Fighting Procedures:** Wear full protective clothing and self-contained positive pressure breathing apparatus certified by NIOSH when fighting chemically related fires.  
**Unusual Fire and Explosion Hazards:** None

**Section 6 - Accidental Release Measures**

Wearing appropriate personal protective equipment, sweep up using a dust suppresser. Vacuum the remainder of the smaller quantities using a HEPA-type vacuum. Avoid inhaling dust. Place waste in a plastic bag or other suitable container and dispose of as residual waste. This material is not defined as hazardous waste by RCRA (40 CFR Part 261) and may be landfilled according to federal, state and local regulations.

**DISCLAIMER:** This Safety Data Sheet is offered without charge to the clients of Agilent Technologies. Data is the most current available to Agilent Technologies at the time of preparation and is issued as a matter of information only, no warranty as to its accuracy or completeness is expressed or implied.
**Section 7 - Handling and Storage**

**Section 8 - Exposure Controls/Personal Protection**
Ventilation: Adequate ventilation is required to protect personnel from exposure to chemical vapors or dusts exceeding PEL and to minimize fire hazards. See Section 15 for regulatory standards of exposure. Respiratory: Use NIOSH approved respirator equipment. See Section 15.

Eyes: Safety glasses are considered minimum protection. Chemical safety goggles or face shield may be necessary depending on quantity of material and conditions of use. Emergency eye wash fountains should be available in the vicinity of any possible exposure. Skin: Chemical-resistant protective gloves and clothing are recommended. The choice of protective gloves or clothing must be based on chemical resistance and other user requirements. Generally BUNA-N offers acceptable chemical resistance. Individuals who are acutely and specifically sensitive to this chemical may require additional protective clothing.

**Section 9 - Physical and Chemical Properties**
Flash Point (Method Used): NA
Explosion Potential: LEL (NA)/UEL (NA)
Specific Gravity (H2O = 1): NA
Melting Point (Degree F): NA
Evaporation Rate (n-butyl acetate =1 ) NA
Boiling Point (Degree F): NA
Vapor Pressure (mm Hg at 25°C): ND
Vapor Density (Air =1): NA
Odor Threshold: ND
Octanol/Water Partition Coefficient: NA
Solubility in Water: Insoluble (X ) /Soluble ( )
Appearance and Odor: Columns, no odor.

**Section 10 - Stability and Reactivity**
Stability: Stable ( x ) / Unstable ( ) Conditions to Avoid: NA
Incompatibility (Materials to Avoid): NA
Hazardous Decomposition or Byproducts: NA
Hazardous Polymerization: May Occur ( ) / Will Not Occur ( x)

**Section 11 - Toxicological Information**
Route(s) of Entry: Inhalation? No Skin? No Eyes? No Ingestion? No
Health Hazard Acute/Chronic: No adverse human health effects have been observed upon exposure to the substances in this column.
Medical Conditions Generally Aggravated by Exposure: None known.

**Section 12 - Ecological Information**
Persistence/Degradability: ND
Biodegradability: ND
Bioaccumulation: NA

**Section 13 - Disposal Considerations**
Unused product is not hazardous as defined by RCRA (40 CFR Part 261). Unused material may be landfilled as a residual waste according to federal, state and local regulations.
Section 14 - Transport Information

DOT Regulations: IATA-DGR Regulations:
Shipping Name: Non-regulated Material Shipping Name: Non-regulated Material
RID/ADR: NA ADNR: NA

Section 15 - Regulatory Information

Exposure Limits: There are no established exposure limits for the substances in the columns.

SARA Reporting: Section 302: None Section 304: None Section 313: None
OSHA Labeling Requirements: None

Section 16 - Other Information

Unless otherwise noted, the above information pertains only for the base material and similar types of components in the sample.
When no toxicity data is provided, it is prudent to handle this chemical as hazardous. Furthermore, since individual chemical hypersensitivity cannot be predicted, every chemical should be handled with due respect.
